

Minutes of P-10 Committee on Integrated Passive Devices

April 28, 2009

Chateau Bourbon

New Orleans, LA

P-10 Committee's Scope:

Will provide technical support and develops standards and specifications for electronic devices using mixed passive product technologies and diodes that perform a passive function, e.g., a) resistors and capacitors; b) resistors and diodes; c) resistors, capacitors, and inductors.

These devices may be discrete components that are "integrated" on a common substrate (hybrid) or in a carrier formed by a common manufacturing process (monolithic).

Activities also include the generation of terms and definitions, review of specifications, establishment of new specification criteria, and maintenance of existing criteria relating to these devices.

To accomplish these functions, the committee maintains liaison with and uses technical information from other standards development organizations (SDOs), government agencies, industry, various professional organizations, participating members, and guests.

2.0 Committee Organization and Procedures

2.1 Membership and Attendance

Attendance was taken, and it was determined that a quorum was present.

2.2 Approval of Agenda

The Committee unanimously accepted the Agenda as presented.

2.3 Approval of Minutes

The Committee unanimously accepted the Fall 2008 minutes as presented.

2.4 Correspondence

No correspondence was received.

3.0 Old Business

3.1 Review any additions to PDP-100

No new additions required.

3.2 Review EIA/ECA 800 (PIN 5146), EIA/ECA 850 (PIN 5145), CB16 (PIN 5144).

All are active and published - this topic is closed.

3.3 Review active projects list for the five year review period.

Action Item for Brian Piscitelli to review the project listing on the ECA website and determine which is active and make sure all are up to date. Work with Bob Willis to clean up this listing on the website.

4.0 New Business

4.1 Collect member input regarding J-STD-075 for NEDA Technical Roundtable

All members present were aware of the document, a few customers are asking for this info to be labeled. Sounds like Kemet has done the most work and is close to labeling all of their products according to J-STD-075. Mike Lauri mentioned that Paul Krysteck at IBM presented a paper at CARTS 2009 on the J-STD-075 in order to educate the industry.

Action Item: Brian Piscitelli to email Bob Willis of ECA to obtain a copy of Paul's slides and paper from CARTS 2009 which will be added to the minutes of this meeting.

5.0 Next Meeting

October 5 – 8, 2009 at the Doubletree in Savannah, GA.

6.0 Adjournment

The meeting was adjourned at 11:29 AM.

This meeting was conducted in accordance with the EIA Legal Guidelines and the Manual of Organization and Procedures.
