## **KFI and IntertechPira team up on new market study**

IntertechPira is offering Kilofarad International members a special price for its new study The Future of Ultracapacitors – a saving of more than 45%!

This brand new report provides statistical data for the global ultracapacitor market by region and end-use sector, and forecasts growth to 2014 based on extensive primary research. The Future of Ultracapacitors takes an in-depth look at the drivers and challenges shaping the future of the market. It also outlines the latest technology and material developments in the sector, and the opportunities they afford. All this, combined with a breakdown of key industry suppliers and consumers, represents essential reading for your business.

Michael A. Everett, Vice President / Chief Technology Officer at Maxwell Technologies and COB, Kilofarad International, has described the study as a “factual credible piece of work that details a broad view of the markets and players in that market”.

The special price for KFI members is just \$3,000 – a saving of more than 45% on the full price!

To order the study, please contact Stephen Hill on +44 (0) 1372 802 025 or email [stephen.hill@pira-international.com](mailto:stephen.hill@pira-international.com) and quote KFI SPECIAL.
